

Fairly immediate
Terry
• doing design + coding on prototype
• upgrading tech or working on structure
of company, relationships

• High on design
• less high on code, but can do and like to
1 yr. long ended November San Diego
• 6-7 people group from so far
Sr Architect, ^{reflected} Ted

make sure its working

Boston
Lanschool & Nextstep dev company

most fun
wants to get back to

and 10-50 people

Next steps

• he waits 2 weeks until Europe friend returns
• girl friend in Chicago

Darren Barker

- Elizabeth Hodge at Stanford
~~excess~~ ~~excess~~ project &
use as reference
did student tester 723226

Can do: prototype or quick build

want to do: internal shift
exciting, larger impact

Bruce: risks fine

\$60 base \$15-20% bonus

\$400/mo rent

others

- talking with online monday
- startup possibly
July 2nd decision

• talk too fast :-)

~~the~~ Estimates

• ref Shaw

Satish Bathetti

PC software, Unix

MCI Video conf system 4 yrs

Picture tel

Papamus video game into 3D Worlds Inc stuff

Windows 95

Terry Talbot

Software eng for Brunaid Arm

Started Nextstep company in Cambridge

CA Bar in March '96

Interested in doing the plan created

Mike Burner

Design & delivery of large scale systems
managed Harvard's computer systems

Logica Inc systems architect

~ ITV trials

Visa homebanking system 8 months

Citibank

ATT

• Universal Metaservice

• orthogonal and is virtual reality

Uniq. with unid. across multiple services

4 Economic model / Attention-based

3 Nexus / metaservice

2 Filtering / Querying

1 Group Structure

Layer 0 User Identity

Core Ideas

Identity : UIDs

pseudo Anonymous

universal access

open / IETF

Context

- context \approx place

- set of UIDs

Query Rtt filtering "Buddy list" + alerts
